

Amendments to the Specification:

Please add the following new headings and paragraph after the Title.

CROSS-REFERENCE TO RELATED APPLICATION

This application is a U.S. National Stage application of PCT Application No. PCT/AT 2004/000283, filed August 9, 2004, which claims priority from Austrian Application No. A 1312/2003, filed on August 20, 2003.

FIELD OF THE INVENTION

Please add the following new heading prior to line 12 on page 1.

BACKGROUND OF THE INVENTION

Please add the following new heading prior to line 23 on page 1.

BRIEF SUMMARY OF THE INVENTION

Please amend the paragraph starting on line 23 of page 1 as follows:

One ~~object embodiment~~ of the present invention ~~lies in the creation of~~ creates a combinational circuit part, which can be used universally, is adapted in real time to current operating conditions and can be better monitored.

Please amend the paragraph starting on line 26 of page 1 as follows:

This ~~object~~ is accomplished with a combinational circuit part of the type given in the introduction, in which, according to the present invention, a digital signal processor for the running calculation of set points is provided for the control circuit and the voltage converter comprises a (bus) interface, via which operating parameters can be transmitted to the digital signal processor and can be preset from an external control center.

Please add the following new heading prior to line 13 of page 2:

BRIEF DESCRIPTION OF THE DRAWINGS

Please amend the paragraph starting on line 13 of page 2 as follows:

The present invention together with further advantages is illustrated in detail below based on an exemplary embodiment, which is shown in the drawing. ~~In this drawing, the only figure shows a simplified wiring diagram of a voltage converter according to the present invention.~~

Please add the following new paragraph and heading prior to line 17 of page 2.

Fig. 1 shows a simplified wiring diagram of a voltage converter according to the present invention.

DETAILED DESCRIPTION OF THE INVENTION

Please add the following paragraph at the end of page 5:

Although the invention is illustrated and described herein with reference to a specific embodiment, the invention is not intended to be limited to the details shown. Rather, various modifications may be made in the details within the scope and range of equivalents of the claims and without departing from the invention.
